SKILLS & COMPETENCIES

Experienced

- React JS
- JavaScript
- Git or GitHub
- Tailwind CSS
- Firebase Authentication

Familiar

- Node JS
- Express JS
- MongoDB
- Mongoose
- JWT token

Novice

- Next JS
- Python
- SCSS

PROJECTS SHOWCASE

Wislio

[Live site view](#)[Client code endpoint](#)[Sever code endpoint](#)

This application is designed to seamlessly manage a book library by empowering a librarian-role user.

- Delivered responsive design, dynamic theme toggle, and captivating slider animations using the Swiper JS library.
- Implemented secure Firebase authentication and server-driven authorization using JWT tokens for enhanced system integrity. Exclusive CRUD access for the librarian-role user.
- Enabled seamless data synchronization with server-side through REST API, enhancing user experience with optimized loading stages.
